EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Thomas Hatfield on 13 April 2004.

The application has been amended as follows:

In the abstract:

In line 1, please delete the introductory phrase reading: "The invention relates to a" and insert --A--.

In line 4, please delete the second occurrence of "is made possible" (the last three words of line 4).

2. The following changes to the drawings have been approved by the examiner and agreed upon by applicant: In Figure 2, a valve must be shown, in accordance with the description given in claims 7-12. Therefore, the valve must be located at the entrance of the cannula (11), to open upon inhalation and close upon exhalation, and must not introduce new matter. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

Response to Arguments

3. Applicant's arguments, see pages 6-7 specifically, filed 10 March 2004, with respect to claims 1-20 have been fully considered and are persuasive. The rejection of these claims has been withdrawn.

Allowable Subject Matter

4. Claims 1-20 are allowed.

5. The following is an examiner's statement of reasons for allowance: The relevant prior art, including the Psaros reference, does not disclose or fairly suggest a tracheal cannula having a window with an air-permeable membrane, wherein the membrane has sufficient permeability to allow for patient vocalization. While the Psaros reference does teach an air-permeable membrane, with notable permeability to NO and poor permeability to O₂ and CO₂, the membrane does not have sufficient permeability to allow for patient vocalization.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Amanda R. Flynn whose telephone number is 703-306-4056. The examiner can normally be reached on Monday-Thursday, 8:30 - 6:00 and alternate Fridays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Henry A. Bennett can be reached on 703-308-0101. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
